Vicky,

Angela has been invited. I also gave you administrative rights, so you should be able to add people to the workspace now. I'm happy to keep maintaining this workspace for you, but since I'll be home for the holidays from Dec 23-Jan 3, I wanted to make sure that people could still get access if I'm not here to make the updates. If you should need to add people, here's what you do: From the project main page, at the top near 'edit,' 'refresh,' etc, you just click "Manage Members", and click "Invite members" at the far right. Then you enter first and last name of the person you want to add (it will suggest results from the EPA directory). Then just select them and click "Invite Person to Project."

Christina, can you please add Angela McFadden to the Dimock project on the ESC? (I would do it, but I don't know how.)
Thanks.--Vicky
